Produced by Werner Nadolny. Engineered and co-produced by Ossy Pfeiffer.

Artwork and layout by Christian Bröhenhorst, CrudeART Design, www.crudeart.de

Band booking: booking@jane-band.com

The romantic classic part of *Space Waters* is dedicated to Anita.

SIEBEN – die heilige Zahl des Vollständigen und Ganzen, der Fülle und Vollendung.

Schon Pythagoras, der Vater der abendländischen Zahlensymbolik, sagte „Die Zahl ist das Wesen aller Dinge“. Nach alter Überzeugung gibt es zwischen Himmel und Erde sieben Sphären, durch die die Planeten wandern. Die Sieben gilt als heilige Zahl, weil sie sich aus der göttlichen Drei und der irdischen Vier zusammensetzt und daher Gott und Welt miteinander verbindet. Als Symbol des Ganzen und Vollständigen ist sie so bedeutsam, dass sie wie keine andere Zahl Mythen und Märchen, Sitten und Gebräuche, Religion und Magie durchzieht. Gewiss wurde ihre Symbolik ursprünglich vom Himmel abgelesen, wo die sieben klassischen Planeten eine Ganzheit darstellen. Nach antiker Überzeugung ziehen sie über die sieben Sphären und erzeugen durch ihre Reibung die sieben Töne unserer Tonleiter, die man als Sphärenmusik hören kann. Vielleicht schweben deshalb die Herzen der Verliebten im siebten Himmel? Deswegen ist diese CD mit insgesamt sieben Titeln, wie schon auf der „JOURNEY“ angekündigt, die Weiterführung und Vollendung der neuen Werner Nadolny's JANE - Schwingung.

Werner Nadolny

[1] TRIPTYCH

[Music: Nadolny/Rogon, Lyrics: Ilg]

a) BEAUTY

A body carved out of marble
The hair's reflecting the sun
Eyes reminding of mountain lakes
God had nothing left undone

But a closer look into the mirror
Reveals the fact that you must care

For just a little more by here and here
And just a little less by there

Situps in the morning
Studio in the afternoon
Small salad in the meantime
Low carb after the swimming pool

But a closer look into the mirror
Reveals the fact that you must care

For just a little more by here and here
And just a little less by there

Just a little more by here and here
Just a little less by there
So your beauty'll last
for evermore, evermore

b) PROSPERITY

Go ahead with your business
Conform to our society
Deliver your money to the broker
He grants your prosperity
You got some so you want more
You succeed but you ignore
Fortune is not here to stay
Sometime it's up to you to pay

Should you shop now –
or should you push off
Will you increase – or liquidate it all
Friendly take over – hostile take over
Duff them all – or you never live in clover

You couldn't wait to finish school
To study and to learn the rules
How to fleece the one
who was your maid
To grab the things that others paid
Believers in the global madness
Creating wealth, creating sadness
Are surely what they want to be
But also the minority

You've got a brain,
you have the eyes to see
But no heart to change priority
Years go by and there will come the day
All you've been will be away

c) MEDIA

The fingers mistreat the keyboard
The eyes fixed on the screen
The mission is to kill the warlord
This child has jumped to level sixteen

Where is the time,
where are the places
Where is the time
when friends were real and had fun
When they were
so much more than faces
Playing their games
under the sun

our budgie is in the moulting
Your guinea pig has the flu
Can't you really leave one thing
The world won't know about you

Are you underestimated
Your talents gotta be set free
Disgrace will be your venture
TV's gonna push you – maybe

[2] CIRCLE OF HANDS

[Music: Hensley, Lyrics: Hensley] Uriah Heep Cover Version

[3] BORROWED TIME

[Music: Nadolny/Rogon, Lyrics: Ilg]

You get up each morning, autumn emotions inside
Surrounded by darkness of any kind
Yesterday's colours, where have they all gone
We played in the water and we laid in the sun

You enter the street now and you're fighting the rain
So tired of sorrow, so tired of pain

But this is Borrowed time – you can't define
Borrowed time – ease your life

You're looking for someone help loosening these chains
Won't stop crying again and again
Your mind is a dangerzone when you sit lonely at home
But there's one thing you can believe in – you're not alone

You know it's borrowed time – you can't define
Borrowed time – ease your life

A voice in your head is calling: this is not the end
This is the moment right now – take my hand
So look in my eyes kid and hear what I say
I know we'll make it – no reason to stay

Remember that it's borrowed time – borrowed time

[4] SPACE WATERS

[Music: Nadolny/Rogon, Lyrics: Ilg]

Away the days in lands of harm
You want more than another lover
Burn the bridges to the past
Our fantasy sleeps undercover

I'm the air on a dive in space waters
Into the deep up in the sky

Feel the stream set your mind free
Let your soul be your body
Close your eyes and you will see
There's so much more than milk and honey

I'm the air on a dive in space waters
Into the deep up in the sky
You're the sound of young river's daughters
Songs as circles passing by

Sure you know what it is finally
That keeps everything in motion
The holy you, the holy me
In our universal ocean

A dream of wonderness and harmony
All around the kindness of the sea
Feel the rhythm of eternity

[5] ROSES ON THE FLOOR

[Music: Nadolny, Lyrics: Ilg]

One more journey across insanity
Tried to falsify the history
But when I opened up my door
I found roses on the floor

What was it worth the fellows' company
Beware of trusting their reality
I should have known that all before
I found roses on the floor

If you try to tell me, really understand me now
Talking 'bout memories right in the silent dreams now
Give a dream right through my mind
Feeling sadness – feeling fine

Fruits of love both sides along the way
Was there a reason not to go astray
Had each apple with it's core
Till I found roses on the floor

Fairytales around an open mind
Gathered experience of the hurting kind
Wonder if you hold me or ask for more
Then I found roses on the floor
I found roses on the floor

[6] A LITTLE BIG WHILE

[Music: Nadolny, Lyrics: Weinhold]

Shall you go – shall you stay
At the crossroads on your way
Walk to the left – walk to the right
Shall you party – shall you sleep at night
Do you love the way you live
Is there enough, enough to give

Will, hope, time – years go a little big while
Words I wrote it all down – after nights on the town
You can be sure in every way – I do believe in every word I say

Time's almost right – Singing our song tonight
Having you on my side – Time's almost right

Shall you wake up – shall you dream on
Shall you look back to where you belong

I saw the poor in the dark – more than a million livings apart

Whenever I take you by my hand
And start to talk to you my friend
You can be sure in every way
I do believe in every word I say

You can be sure, we say it again – we always do the best we can
